

by Bruno Fauz

Tearsheet

Weight without packaging: 12.5 kg

Product volume mounted: 0.42 m³

Top in bevelled MDF, coated with natural wood veneer protected against microorganisms divided into 3 parts.

It has metallic detail embedded in the top that accompanies the color of the base.

Structure in carbon steel with metallic paint.

Polymer shoes.

Recommended product for residential and corporate use.

** Due to the exposure of the product to ultraviolet rays, the wood will undergo changes in its original color over time.

** The base finish may have slight protrusions coming from the material that is evidenced due to the mirror finish.
